

Take *one set* of **width** and **depth** photos for *each different size hole* . . .

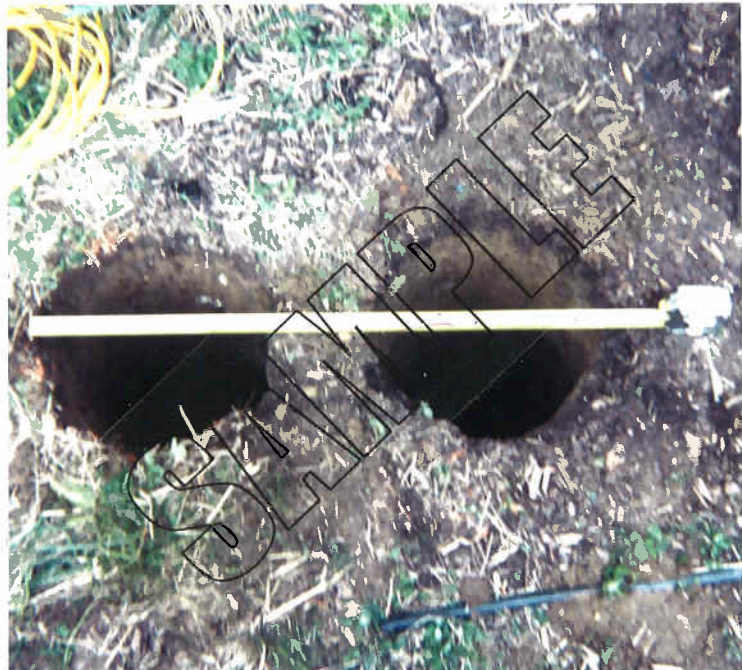

**Depth Photos:** Extend a ruler to the bottom of the hole showing that it is at least 32" deep.

**Width Photos:** Run a ruler across the hole to show that it is the width specified on your plan. If the hole is wider at the bottom, put the ruler there to show the proper width.

Take a photo to show that you have *two* footers to support any set of **stairs** that is 30" high or higher . . .

**Stair Footer Photos:** Show that the two footers are at least 8" wide and 32" deep.

Take an **overall** photo that shows *all* of the holes . . .

**Overall Photo:** Step back and take a photo showing all of the holes with the house in the background. For large structures, several photos may be needed.
