Title: EMERGENCY MEDICAL SERVICES SENIOR
LIEUTENANT

Approved:

GENERAL STATEMENT OF DUTIES: Supervises and oversees the activities of a number of personnel engaged in the delivery of basic and advanced life support services; performs responsible technical and administrative work relating to emergency medical services; does related work as required.

DISTINGUISHING FEATURES OF THE CLASS: An employee in this class is responsible for performing a variety of administrative and/or operational tasks related to the safe delivery of emergency medical services. Primary duties include the daily scheduling, supervision, coordination, and evaluation of emergency medical services personnel. These responsibilities include providing technical assistance to basic life support and advanced life support personnel, instructing and training assigned personnel, making work assignments, and monitoring the accuracy and effectiveness of work performed within the Emergency Medical Services Division. This employee is responsible for using reasonable initiative to ensure that adequate supplies, equipment, and well-trained personnel are available to maintain operational and administrative efficiency. The work is performed under general supervision of an Emergency Medical Services Captain and/or Emergency Medical Services Assistant Chief.

EXAMPLES OF WORK: (Illustrative Only)

- Assigns, supervises, and coordinates the activities of basic life support and advanced life support personnel to ensure that services are being provided consistent with policies and procedures and established medical protocols and guidelines;
- Plans work schedules and issues specific assignments in order to maintain appropriate coverage levels and unit staffing;
- Inspects personnel uniforms for neatness, emergency vehicles for proper stocking and cleanliness and, stations for safety standards;
- Maintains contact with the emergency communications center, all County emergency medical services facilities, and all medical control physicians via use of radio, telephone, or other communications device;
- Responds to emergency medical incidents for on-scene observation and evaluation of assigned personnel while providing technical support and counseling to employees to improve individual performance and proficiency;
- Participates at emergency incidents as the medical command component of an incident management or incident command system until relieved by a higher ranking staff officer;
- Oversees and coordinates an administrative function, such as quality improvement, training, replacement of equipment, supplies, and vehicles, etc.;
- Makes investigations of complaints and disciplinary problems and makes recommendations for resolution of the complaint or problem;
- Reviews the daily reports of assigned personnel to ensure compliance with policies and procedures, medical protocols, and quality assurance guidelines;
- Keeps accurate records, prepares reports of activities and incidents, and submits reports and summaries;
- Conducts in-house continuing education, orientation, and training on new equipment, drugs, techniques, or policies and procedures for support staff;
- Completes appropriate re-certification, continuing education programs, and examinations necessary to maintain State of Delaware Paramedic certification;
