NEW CASTLE COUNTY GOVERNMENT

CLASS SPECIFICATION

Title: CRIME ANALYST

GENERAL STATEMENT OF DUTIES: Provides tactical and strategic analysis of data, in particular crime data, to the Department of Public Safety to assist in the solving of crimes and deployment of resources; recommends and integrates new data-based crime prediction strategies; does related work as required.

DISTINGUISHING FEATURES OF THE CLASS: An employee in this class performs tactical, strategic, administrative and operational analytics. The employee also researches new techniques and technology related to crime analysis. The employee works within a law enforcement agency under the direction of sworn officers or other designated supervisor to provide critical information in the prevention and solving of crimes.

EXAMPLES OF WORK: (Illustrative only)

- Expands the Division's analytical and intelligence capabilities by proposing and implementing new approaches and methods;
- Educates commanders and line officers in the operational application of crime analysis and technology;
- Develops strategies to integrate data and technology into daily police operations, decision-making, and long-term problem solving efforts;
- Provides information to police or County administration for decision making purposes.
- Presents analysis and statistics in various internal and external forums;
- Develops statistical data resources to assist in proactive and targeted investigations, preventative enforcement and education, identification of patterns and trends and identification of known and repeat offenders;
- Uses computer databases, electronic spreadsheets, desktop publishing, word processing and statistical applications to manipulate, analyze and present data;
- Studies current literature on research methodology and police issues, and makes appropriate recommendations for improvements in crime analysis practices;
- Conducts statistical and strategic analysis which includes preparing monthly, quarterly, annual, and on-request reports;
- Researches and analyzes complex law enforcement data; identifies and interprets criminal activity, patterns, and trends; and forecasts trends to aid in staffing and deployment of police personnel;
- Prepares a variety of mapping (GIS) products, including those that are the product of geo-spatial analysis;
- Responds to ad-hoc requests for data and reports from all levels and units of the department;
NEW CASTLE COUNTY GOVERNMENT
